

**To Whom It May Concern**

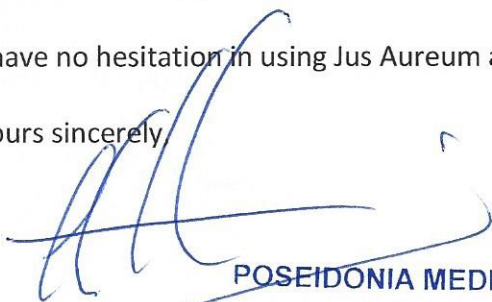

I am happy to provide a general letter of reference for Jus Aureum.

I have enjoyed a professional and fruitful relationship with Jus Aureum when they helped me deal with insurance companies in Russia. I find the firm very easy to work with and their responses are very swift and accurate.

Their knowledge, diligence, and focus to detail, has added greatly to the successful settlement of the case. By using the services of Jus Aureum, I can focus on my main objectives and feel completely confident in knowing that those who represent my interests will keep me consistently updated and inform me of any potential risk.

I have no hesitation in using Jus Aureum again or in recommending them to others.

Yours sincerely
